

Advanced Threat Defense (ATD) Test Report

July 6, 2021

Solution Tested

RevBits

RevBits Endpoint Security

Components

RevBits Endpoint Security - client v.1.2.0

Threat Vectors

In testing, ICSA Labs delivers malicious threats with the primary threat vectors that lead to enterprise breaches according to Verizon's Data Breach Investigations Report (DBIR)

Standard ATD Effectiveness

Malicious Threats Detected / Not Detected

401

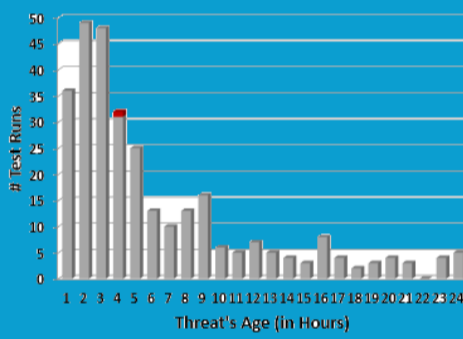

2

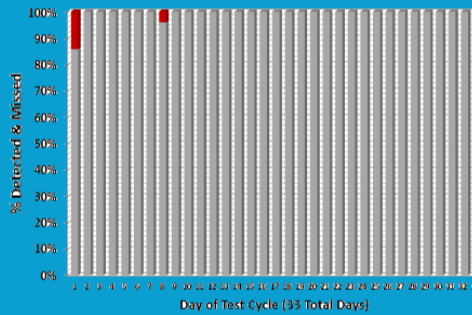

Effectiveness Details

RevBits Endpoint Security was nearly 100% effective during the Q2 2021 test cycle, detecting all but 2 of the new and little-known malicious samples in the test set

Of 164 threats 4-hours old or less, RevBits Endpoint Security detected all but 1 of them

On 31 of 33 days during the Q2 2021 test cycle, RevBits Endpoint Security was 100% effective and never missed more than a single threat on any day during the test cycle
